Mission and Functions

The mission of the Illinois Department of Financial and Professional Regulation, Division of Insurance is:

To protect consumers by providing assistance and information, by efficiently regulating the insurance industry's market behavior and financial solvency, and by fostering a competitive insurance marketplace.

The Division carries out its mission through effective administration and enforcement of the Illinois Insurance Code (215 ILCS 5/1 to 5/1312), the Illinois Pension Code (40 ILCS 5/1--101 to 5/24--109) and related laws and regulations (Title 50, Illinois Administrative Code.) The Division has four major operating Sections: Administrative Services, Consumer--Market, Financial--Corporate Regulatory, and Legal. The Division also sponsors the Senior Health Insurance Program and oversees the operations of the Office of the Special Deputy, which handles the affairs of insurance companies placed in rehabilitation, conservation or liquidation.

2004: The Year in Review

Consolidation of Agencies

On July 1, 2004 the Illinois Department of Insurance became the Division of Insurance within the newly created Illinois Department of Financial and Professional Regulation (IDFPR). The IDFPR also includes the former Departments of Banks and Real Estate, Professional Regulation, and Financial Institutions. The consolidation of these agencies became a reality through legislation passed in the spring of 2004 and will result in significant cost savings and improved efficiency through sharing of services and expertise.

Financial-Corporate Regulation Section

The Financial Regulation Unit enhanced the efficiency and thoroughness of financial reviews by incorporating procedures from the NAIC Financial Analysis Handbook. This results in improved financial surveillance of insurers.

The Life Actuarial Unit developed two computer software programs to improve efficiency and reduce costs. One program extracts data from the NAIC database for evaluating the investment portfolios of insurers; and the other allows staff to access AM Best data electronically whereas such data was previously available only from hardcopy books.

Consumer Market Section

The Consumer Services Unit continued to improve efficiencies through use of the electronic complaint database. During 2004 approximately ninety-two percent of requests for responses to complaints were sent to insurers in electronic form and about eighty-three percent of the responses were received back in electronic form. The greatly reduced handling of paper documents has improved processes immensely.

The Life Accident and Health Compliance Unit completed conversion of its review requirements checklists to conform to new NAIC guidelines. The addition of hyperlinks from the checklists to the Division's website for statutory and regulatory texts assists users in completing the checklists, which in turn improves the quality of form submissions and speeds up the review process.

Adds language providing that the Director as rehabilitator, liquidator, or conservator may not avoid a transfer to the extent that the transfer was, in the case of a transfer by a company where the Director has determined that a regulatory action level event or an authorized control event has occurred, specifically approved by the Director in writing, whether or not the company is in receivership. Also, provides that that portion of any estimated and allowed contingent claim that is attributable to claims incurred but not reported to the insolvent company's reinsured shall not be billable to the insolvent company's reinsurers. It provides that the liquidator may negotiate a voluntary commutation and release of all obligations arising from reinsurance contracts or other agreements. Provides that existing insurance cards with an individual's social security number must be replaced with insurance cards without the individual's social security number (**this provision is effective January 1, 2006**). Insurance Rulemaking in 2004

Part 5425 - Was updated effective April 8, 2004, in order to clarify that managed care dental plan policy form filings are to be filed in compliance with 50 Ill. Adm. Code 916. In addition, the Department is taking this opportunity to remove any ambiguity from the rule concerning the requirement to file when there has been a material modification.

Part 3113 - Was updated effective May 10, 2004, to permit an insurance producer to have greater flexibility when making investments, but will ensure that the investment risk undertaken is at a level consistent with the requirements of this Part. The balance of the Department's amendments are housekeeping in nature and are meant to bring clarity to this Part.

Part 919 - Was updated effective July 1, 2004. In July of 2002 the Department adopted various amendments to this Part including an amendment that added Section 919.50(d). Prior to the adoption of these amendments last year, much discussion occurred between the Department and interested parties who firmly maintained that the financial impact of implementing the provisions of Section 919.50(d) would be very costly. In an effort to ease the financial burden immediate compliance with Section 919.50(d) would have caused, the Department agreed to incorporate a specific compliance date for this Section giving the insurance industry one year to make the transition. Since that time the Department has been compiling information concerning this entire process while conducting our field examinations pursuant to Section 132 of the Illinois Insurance Code [215 ILCS 5/132]. The Department is analyzing this information, and we will need to further evaluate whether our current regulation should be amended. At this time, given the expenses involved to achieve compliance with Section 919.50, the Department is moving the July 1, 2003 compliance date off to July 1, 2004.

Part 1409 - Was updated effective July 1, 2004, to allow for recognition and use of the 2001 CSO mortality tables being promulgated under new Part 1412 also published in this Register. At each company's discretion, either the 1980 or 2001 CSO tables may be used for calculations under the requirements of this Part. There are also a handful of technical changes that are being made at this time, at the request of JCAR by memo to the DOI dated February 17, 2000.

Part 1412 - Was effective July 1, 2004, Part 1412 has been promulgated in order to permit companies to use the 2001 CSO Mortality Tables adopted by the NAIC in December of 2002. The purpose of this Part is to recognize, permit and prescribe the use of such tables under the specific authority of Section 223(3)(a)(i) and 229.2(4c)(h)(vi) of the Illinois Insurance Code and for use under 50 Ill. Adm. Code 1409.40(a) and (b).

Part 2015 - Was updated effective September 9, 2004, and refined terms defined herein; clarified that the one year waiting period will be waived in certain circumstances; addressed both donor and surrogate expenses and added a benefit limitation Section to Part 2015. Note: this regulation was promulgated 10 years ago and required revision to clarify the Division's regulatory intent.

Part 5420 - Was updated effective September 28, 2004, to more fully and accurately describe the applicability of the Managed Care Reform and Patient Rights Act to insurers and health care

plans. In addition, the Department has expanded Section 5420.70 concerning all aspects of the complaint handling procedure; has formalized a complaint reporting requirement to include electronic submission of such complaints and we have added a new Section to the rule which permits the imposition of penalties when the complaint reporting requirement has not been met in a timely fashion. Finally, the Department is amending Section 5420.50 to clarify a plan's responsibility to notify enrollees when a provider terminates.

Part 5421.110 - Was updated effective October 19, 2004, in order to adjust maximum yearly out-of-pocket limits for enrollees and to specify how those maximums are to be calculated.

Part 932 – Was updated effective February 23, 2004, to reflect simplified standards and procedures for the tiered discount rates that were established within this rule 20 years ago, which required the insurance industry to offer discounts to insureds who may have had any one, or combination of anti-theft devices installed on their automobile either aftermarket, or by the manufacturer, have become obsolete in their current form. This regulation will be updated to reflect simplified standards and procedures.

Part 909 – Was amended effective March 1, 2004, to eliminate the requirement for the companies to formally file a compliance certificate. Alternately, companies will be obligated to perform the certificate function themselves and to place such certificate on file in-house consistent with other record keeping requirements in Part 909.

Part 2002 – Was amended effective March 1, 2004, to eliminate the requirement for the companies to formally file a compliance certificate. Alternately, companies will be obligated to perform the certificate function themselves and to place such certificate on file in-house. In addition, an outdated term was replaced by a more preferred, current terminology.

Part 1411 - Was effective January 1, 2004, this rule adopts the National Association of Insurance Commissioners' (NAIC) Universal Life Insurance Model Regulation. The rule will supplement the Department's existing regulations on life insurance policies with standards and requirements specifically applicable to all individual and group universal life insurance policies except variable universal life policies. The rule establishes minimum standards for reserve valuation and cash surrender values and mandatory policy provisions, including a periodic policy status report to the policy owner or group certificate holder.

Administrative Services

The **Administrative Services Section** provides staff support for information technology, personnel management, record and mail services, word processing, and all tax and fiscal operations, including development and administration of the agency's budget. The Division of Insurance is funded from four sources.

More than 100% of our appropriation comes from the Insurance Financial Regulation Fund, the Insurance Producer Administration Fund, and the Public Pension Regulation Fund, which are funded by various taxes and fees collected from insurance companies and producers, public employee pension funds and retirement systems in the state. In addition, our Senior Health Insurance Program (SHIP) receives funding from a federal grant.

For FY 2004, the Division's appropriation was \$34,046,570. Of that total \$700,000 were federal funds for SHIP. Revenue collections for the year totaled \$369,790,118, of which \$314,640,004 was deposited into the General Revenue Fund.

As of June 30, 2004, the Division of Insurance had \$10,042,330 in net accounts receivable on the books from 1,337 accounts. Of those, \$570,952 was from privilege tax litigation cases involving the 1997 Supreme Court decision that the tax was unconstitutional. Another \$4,246,300 came from annual financial regulation fee billings under 25 days old, and \$753,322 in liquidation proceedings. Thus, a total of \$4,471,756 more accurately reflects the Division's accounts receivable.

The Division of Insurance sends a past due letter on accounts receivable over 30 days. After 60 days, the originator of the accounts receivable is requested to assist in the collection. After 75 days, a request is made to initiate regulatory action against the insurance company or individual licensee. If an account is outstanding after 90 days, the account is submitted to the Comptroller's Offset System. After 180 days, the account is reported to the Debt Collection Board and submitted to a collection agency.

Consumer Market

The **Consumer Market Section** oversees the Division's consumer protection and education programs, licenses and regulates the activities of insurance producers, and monitors the marketplace operations of insurance companies through policy analysis, complaint investigation and periodic on-site examinations.

Consumer Services and Education Programs

During 2004, the **Consumer Services Unit** continued to refine and use the **electronic complaint database**. The system has proven itself to be reliable and has expedited the handling of consumer complaints. During 2004, approximately 92% of complaints were sent to respondents via fax or email. The Unit continues to utilize the electronic group mailbox, which encourages licensees to respond to their complaints via email or a fax server that converts the transmission to an email. We also now utilize a Complaint Depository which allows respondents to "drop off" responses to complaints securely. In 2004, approximately 83% of all complaint responses arrived electronically. Reconciliation of consumer complaints is also conducted on the electronic complaint database, which allows the electronic exchange of information and immediate revisions to complaints that are affected.

The Division continues to create and revise consumer fact sheets that provide consumers with information regarding numerous insurance topics. These fact sheets are available on our website. The Division also has a toll-free consumer assistance hotline enabling consumers to easily reach our analysts with questions or complaints about their insurance companies. In 2004, we implemented an electronic system for assigning and responding to inquiries to the Director's email. The Consumer Services Unit responded to 2,347 inquiries received by the Director's email. Most of these emails receive a written response within 24 hours of receipt by the Division of Insurance.

The Division continued an active presence in Consumer Outreach, utilizing local radio talk shows for distribution of insurance information. In addition, the Consumer Outreach staff made 16 disaster site visits for face-to-face consultations with consumers on insurance related questions. The Division also operated an informational booth at the Illinois State Fair that provided one-on-one assistance to consumers and distributed written materials on various insurance topics.

In addition, the Consumer Services Unit handled 2,003 complaints that were not counted in the official reconciliation figures. These complaints are excluded from reconciliation for various reasons such as the plans are self-insured or contracts are written in other states, etc. Our Division attempts to assist consumers in these situations even though the complaints are not officially counted. This brings the total number of complaints handled by the Unit to 14, 194.

The Unit also handled 3,607 written inquiries. These inquiries were not set up as official complaints but were answered by our staff by providing pertinent information to the consumer.

Consumer Outreach Activities

During the year 2004, the **Office of Consumer Health Insurance (OCHI)** received 17,784 calls from 1,030 different zip codes in Illinois. The three most frequently addressed topics were: group insurance (3,233); claims (2,875); and individual insurance (2,132). OCHI continued to

distribute informational brochures to numerous entities throughout the state that could provide the brochures to their stakeholders.

Beginning January 1, 2002, OCHI's responsibilities were expanded to include incorporation of the new **Uninsured Ombudsman Program** created by P.A. 92--0331. The Program was enacted to provide assistance and education to uninsured individuals regarding health insurance benefits, options, and rights under state and federal law. This is done through direct contact with individuals over the OCHI/Ombudsman toll--free line, as well as making contact with entities throughout the state that may have contact with the uninsured population, including township officials and county and local health departments. In order to best provide these services to the uninsured population, OCHI began collecting information on resources from around the state that, while not necessarily providing insurance, might be able to provide health care options for persons seeking treatment. The program will continue to collect and store this information in a database, accessible by staff, to help guide uninsured individuals.

In 2003, OCHI and the Ombudsman Program, in cooperation with other DOI personnel, completed the creation of a database that contains the information compiled from prior research about the various local, state, federal and other programs to assist the uninsured. The purpose of the database is to make information more easily retrievable by the OCHI staff in order to provide prompt assistance to uninsured consumers seeking assistance for medical, dental, mental health, vision, prescription and other health care needs.

For calendar year 2004, the Ombudsman Program provided assistance to 691 uninsured consumers informing them of programs that might be helpful and accessible in their region of the state. In continuing to increase the awareness of the Program despite budget constraints, the Ombudsman participated in several programs, including the "National Cover The Uninsured Week Program" as a presenter, the Central Illinois Association of Health Underwriters as a speaker, and at Memorial Medical Center as a presenter. The Ombudsman also was a guest on several radio talk shows, participated in several health fairs, participated in a round table discussion for small employer health insurance in St. Clair County and participated on the Small Business Seminar Working Group. We anticipate the Ombudsman activities will increase as the problem of the underinsured and uninsured in Illinois continues.

Market Conduct Programs

In establishing a schedule of examinations, the **Market Conduct Unit** evaluates information gleaned from insurer market conduct annual statements, specifically data regarding paid and denied claims, payment medians, and zip code tracking of company producers by business address. A market analysis of this annual statement data enables us to prioritize companies for scheduling target examinations. Market analysis, in conjunction with our review of consumer complaints, gives us the opportunity to respond more quickly to the ever-changing marketplace.

Market conduct examinations directed at health maintenance organizations (HMOs) emphasized both their compliance with rules and regulations, and accurate and timely payments to their members. Market conduct staff continued to be active on various NAIC working groups designed to address uniformity in market conduct examinations with respect to data calls,

examiner qualifications and examination procedures. The Federal Gramm-Leach-Bliley Act is driving this ongoing effort.

Life, Accident and Health Compliance

The **Life, Accident and Health Unit** is responsible for reviewing and approving all filings for **life, disability, and health** policies and for **HMO, Limited Health Service Organization and Voluntary Health Service Plans**. In addition, the Unit handles HMO complaints, **viatical settlement provider** compliance, and registration for **preferred provider program administrators** and **utilization review organizations**.

Discount Plans

In 2004, the Managed Care Area of the LAH Compliance Unit continued to address the problem of unregistered preferred provider administrators that sell discount programs. These programs take many forms, but the most common are those providing health care services including: hospital, medical, pharmaceutical, dental or vision care. Individuals pay a fee to be members of a discount plan and, in turn, they are afforded access to a network of providers. The consumer then pays the provider, based upon the network's negotiated discounted rate schedule. There is no insurance coverage and traditional provisions for coordinating benefits have no application. Any payment is made directly by the consumer to the provider and represents payment in full for the services provided.

The definition of preferred provider program administrators (PPAs) in the Illinois Insurance Code includes health care discount plans. Specific to discount programs, a PPA includes any person, partnership or corporation that arranges, contracts with, or administers contracts with a provider whereby beneficiaries are provided an incentive to use the services of such provider. The Act goes on to define "beneficiaries" as individuals entitled to reimbursement for expenses of or the discount of provider fees for health care services under a program where the beneficiary has an incentive to utilize the services of a provider, which has entered into an agreement or arrangement with an administrator (215 ILCS 5/370 (g)).

As the number of complaints relating to these plans continued to grow in 2004, the Division's regulatory actions went from educating these plans on their obligation to register, to issuing orders prohibiting the continued functioning of programs unless and until they became properly registered. We believe that, given current economic conditions and pressures affecting the health insurance marketplace, the number of problematic and unregistered discount plans will continue

to multiply. As such, the Division will continue to aggressively assert its oversight of this industry in 2005.

Life, Accident and Health Filing Checklists

Over the course of fourteen months beginning in 2003, the Unit's review requirements check lists on our web site were all individually revised and standardized to conform to new NAIC guidelines. The checklists provide requirements, including prohibited language, mandated benefits, etc., for insurers to use when submitting life, accident and health filings to the Division. The checklists now contain statutory and administrative code text reference hyperlinks to our website. These links provide direct access to the source of the listed requirement. This tool compliments other speed to market initiatives undertaken by the Division of Insurance to ensure quicker and more efficient review of filings as provided by goals established by the NAIC.

Property and Casualty Compliance

The Property and Casualty Compliance Area is responsible for the review of all commercial lines coverage forms and rates that are required to be filed for compliance with Illinois Statutes and Regulations. Additionally, the Property and Casualty Compliance Area is responsible for the review of all personal lines coverage forms and rates that are required to be filed for compliance with Illinois Statutes and Regulations.

The Division continues to work on initiatives aimed at moving accepted products to market as quickly as possible.

Producer Licensing and Regulation

The Licensing Area is responsible for developing and administering licensing examinations required of prospective insurance producers and public adjusters. This responsibility is performed through a test administrator, which has established test sites throughout the state. The examinations are given by computer and electronically graded immediately upon completion. For candidates who pass the examination, an instant application is provided at the test site. In addition, the licensing staff reviews and processes new and renewal applications and issues licenses on—line on a daily basis.

The Licensing Area has increased its participation with the NAIC's electronic Non-Resident Licensing project by adding non-resident renewals, resident producer renewals and non-resident business entity new applicants and renewals, giving the producers even more opportunities to speed up the licensing process.

The licensing area has also added an address change program that operates from the website, producer's may now complete the form and submit it to the Division without having to phone or mail in the address change, this change helps the producers more easily comply with the 30 day notification required by law.

Senior Health Insurance Program

The **Senior Health Insurance Program (SHIP)** is a free counseling program for people of any age on Medicare, their families or caregivers who have questions or problems with health insurance issues. SHIP counselors are trained to answer questions on Medicare, Medicare supplement insurance, Medicare Advantage health plans, Long-Term Care insurance, and prescription drug coverage.

During 2004, SHIP staff and trained volunteer counselors were able to reach more than two million Medicare beneficiaries, their caregivers, advocates and providers through public presentations, health fairs, cable television, radio, and/or website events.

SHIP expanded activities in the Cook County Hispanic community through counseling and educating the Hispanic population on all aspects of Medicare and related health insurance issues. Two bilingual education specialists provided front-line assistance to Hispanic senior groups and other interested parties. They also provide assistance to Hispanic callers statewide.

Demand for SHIP services is greater than ever as people on Medicare will be asked to make a decision about how they will receive their prescription drug coverage in the coming year. SHIP will be educating and assisting Medicare beneficiaries with their options for prescription drug coverage. Illinoisans on Medicare are fortunate that Governor Blagojevich initiated the Illinois Cares Rx program (formerly SeniorCare and Circuit Breaker Pharmaceutical Assistance) to pay most of their out-of-pocket costs associated with Medicare Part D prescription drug coverage. To more effectively serve seniors and individuals with a disability on Medicare, SHIP expanded their volunteer counseling network.

SHIP continues to provide up-to-date informational guides to thousands of people on Medicare and others who advocate for them. Two key publications are the *Prescription Drug Information Guide*, a resource for people who need information on purchasing low-cost or no-cost prescription drugs, and the *Medicare Supplement Premium Comparison Guide*. Both publications are available on-line at the Division's website.

SHIP is funded in part by a federal Medicare education grant and in part by the Producer Fund. SHIP exists in DOI pursuant to 20 ILCS 1405/1404-15 Senior Citizen Assistance and Information Program.

Financial - Corporate Regulation

The **Financial-Corporate Regulatory Section** is responsible for analyzing and monitoring the financial condition of insurance companies, health maintenance organizations, and all other regulated insurance risk-bearing entities, conducting on-site financial examinations, and intervening when potential problems are identified. The Section licenses authorized insurers in the state and investigates and takes action against unauthorized companies illegally conducting the business of insurance.

The Section is intricately involved in oversight of the management operations of Illinois insurers because, by law, many corporate transactions such as entering reinsurance agreements, paying dividends, and transacting business with affiliates require the prior approval of the Division of Insurance.

Financial Regulation Unit

The merger in 2004 of the former Department of Insurance into the Department of Financial and Professional Regulation did not affect the responsibilities and duties of the **Financial Regulation Unit**.

The Unit, having lost two senior supervisors, is functioning with acting supervisors. The Unit's employees have assumed additional responsibilities. The number of companies assigned to each analyst has reached or in some cases exceeded the maximum number recommended by the NAIC Accreditation Guidelines. However, the Unit has still been able to meet guidelines established by the NAIC.

There is no longer a requirement for foreign insurance companies to submit quarterly statements or foreign CPA audits. The Unit's emphasis on domestic insurance companies is consistent with NAIC guidelines.

During the year, the Unit also took steps to enhance the efficiency and thoroughness of the financial reviews. The Unit updated its guidelines for reviews and compared its financial analysis worksheets to the NAIC Financial Analysis Handbook. As a result, the Unit has the tools necessary to quickly identify instances of failed compliance with statutes and regulations, as well as situations that may lead to a hazardous financial condition.

The Unit works closely with several entities with weak or hazardous financial conditions. In these instances Unit staff invest more resources because a more continuous regulatory role is required. For these companies, Unit staff are required to have more contact with company personnel. This contact can take the form of face to face or teleconference meetings with company personnel and their legal, financial and actuarial advisors. Detailed review of expanded analytical data is often required by these situations. In many cases staff are also required to participate in national telephone conference calls with other insurance regulators.

Unit representatives remained active at the national level in a number of NAIC initiatives, including: The National Treatment & Coordination, Financial Regulations Standards, Blanks, Health Entities, Financial Analysis, NAIC/AICPA, Custodial Assets, Rating Agency, Emerging Accounting Issues, Statutory Accounting Principles, Multi-State Surplus Lines, Insurance Securitization, Insurance Holding Company, Risk Assessment Troubled Company Handbook, and Financial Analysis Research and Development Working Groups.

Casualty Actuarial Unit

The **Casualty Actuarial Unit** contributes to the Division's overall responsibility of maintaining a solvent insurance industry by performing actuarial analyses of insurance companies. Actuarial analyses include reviewing statements of actuarial opinion regarding the adequacy of the companies' carried loss reserves; performing loss reserve analyses on annual statement loss data; reviewing work papers supporting the actuarial opinions and participating in on-site financial examinations of insurance companies.

As part of the actuarial staff's involvement of regulating for financial solvency this Unit evaluates all extraordinary dividend notifications; reviews tabular and non-tabular discounting; performs technical analyses of reinsurance agreements for transfer of risk; and monitors carried asbestos and environmental reserve amounts.

Casualty Actuarial Unit staff also participated in several NAIC initiatives, especially the work done on improving the Statement of Actuarial Opinion filing requirements and on the current activities of the P&C Reinsurance Study Group. In addition, the duties of the staff have expanded over time to provide technical analysis to support the Division's role in other areas. These duties include reviews of all medical malpractice rate filings and all rate filings of the Illinois FAIR Plan, the Illinois Automobile Insurance Plan and the Illinois Mine Subsidence Insurance Fund. This Unit also oversees production of the Illinois Property and Casualty Insurance Company Market Share Report.

This year, this Unit has spent a considerable amount of time monitoring medical malpractice insurance issues and medical malpractice claims data. Staff has also participated on the Casualty Actuarial Society's Bornhuetter-Ferguson Working Group and Committee on Financial Soundness/Risk Management.

Life Actuarial Unit

The **Life Actuarial Unit** reviews the actuarial opinions and summaries of results from asset adequacy reserve testing done by domestic insurance companies. The Unit also reviews rates on policy forms for select health lines of business. This Unit supports the Examination, Financial Analysis, and Complaints Units, and is an active participant in the NAIC's Life & Health Actuarial Task Force as well as other task forces.

In 2003 the Unit laid the groundwork needed to adopt the 2001 CSO Model Regulation as an Illinois regulation. In 2004 this work was finished and the model regulation was adopted. The process included making changes to a related regulation and responding to actuarial inquiries from companies.

In 2004 the Life Actuarial Unit expanded its role in reviewing life and annuity policy forms for compliance with nonforfeiture requirements. With the adoption of the Model Index version of the Standard Nonforfeiture Law for Individual Deferred Annuities (effective 7/1/04), the Unit began reviewing annuity policy forms for compliance with this law and related regulations. The Unit developed an actuarial certification that is filed by the companies with each policy form and internal checklists that are used in reviewing the policy forms. The Unit was involved in the efforts of the NAIC's Life and Health Actuarial Task Force to draft an Annuity Nonforfeiture Model Regulation, and also began reviewing life return of premium filings for compliance with the Standard Nonforfeiture Law for Life Insurance.

In the area of health insurance, concern about the adequacy of premiums and reserves for Long Term Care insurance continues to be a major issue. During 2004, the Life Actuarial Unit was faced with the necessity of approving increases in Long Term Care insurance premiums in response to the fact that many companies selling Long Term Care insurance had under priced when they began selling this product. The Unit is also looking more closely at the adequacy of Long Term Care reserves held by Illinois domestic companies. During 2004 the NAIC's Capital Adequacy Task Force adopted changes to the Life RBC and Health RBC formulas, which will increase the RBC requirements for Long Term Care insurance. The Unit participated in the process that developed these changes.

In 2004 the Life Actuarial Unit finished developing two programs. The first program pulls data from the NAIC database to aid in evaluating an insurance company's investment portfolio. The second program allows the Life and Health Financial Regulatory Sub-Unit and the Complaints and Examinations Units access to the AM Best data formerly contained in hardbound books. By automating this system the Division was able to save time and money.

Financial Examination Unit

Illinois law requires the examination of the financial condition of insurance companies domiciled in Illinois not less than once every five years. On-site financial examinations of companies provide for a detailed review of the Company's financial condition, compliance with Illinois laws and regulations, and the reliability of financial statements. The information obtained during an examination may be the basis for timely and appropriate regulatory action.

The Financial Examination Unit has begun the process of purchasing and implementing into the examination process the electronic work paper software known as "Teammate". This is the software used throughout most of the country by insurance regulators and should increase the efficiency and effectiveness of examinations. The Unit also utilizes outside support services to assist in the financial examination of Illinois domestic companies whose books, records and operations are located outside of Illinois.

During 2004, the Financial Examination Unit organized and presented various educational seminars, which provided up to 37 hours of continuing education credits for the Division's financial examination staff and staff from other Midwest state insurance agencies. These seminars featured sessions on subjects such as terrorism insurance, reinsurance audits, the NAIC Risk Assessment Framework, the implications of Sarbanes-Oxley, measuring and managing risk on examinations, planning and coordinating a multi-state exam, and NAIC SVO changes. The paramount emphasis of these seminars was to emphasize a risk assessment approach to planning and conducting examinations.

In addition to performing financial examinations, the Unit annually values the life insurance in force of domestic companies. Reserve liabilities associated with these in-force amounts are certified as meeting applicable minimum standards. Eighteen of these valuations were completed during the year.

Corporate Regulation Unit

The Corporate Regulation Unit is responsible for the incorporation, formation, licensing and registration of insurance entities and approval of various corporate transactions. In 2004, 694 life, accident and health and 1,132 property and casualty insurance companies were licensed in Illinois. Other licensed entities include:

- 413 purchasing groups (organized to purchase commercial liability insurance for their members);
- 79 foreign registered risk retention groups (insurance companies organized to write only commercial liability insurance on behalf of their owner-members);
- 42 reinsurance intermediaries;
- 48 self-insured auto fleets; and
- 161 companies registered under the Service Contract Act.

As of December 31, 2004, 595 resident surplus lines producers and 169 non resident surplus line producers were licensed. Those individuals may, under circumstances defined by law, negotiate insurance contracts with unauthorized insurers not protected by the Illinois Insurance Guaranty Fund. Pursuant to statutory authority, 114 unauthorized insurers have been declared ineligible for use by resident surplus lines producers for good cause.

Although Illinois law prohibits individuals or organizations from sharing risks without authorization to transact the business of insurance, two types of risk-bearing entities are permitted by statute. At the end of 2004, 11 religious and charitable risk pooling trusts, and 10 group workers compensation pools, were operating in Illinois. Twenty-seven companies were licensed as service companies to provide services to the group workers compensation pools.

Pension Unit

In 2004, as in previous years, there was an increase in the number of public pension funds, members, number of trustees, assets, and beneficiaries. The Pension Unit experienced expansions of its compliance audits, electronic filings, advisory services, statistical services, and communications with the various pension funds during 2004.

The Unit maintains records involving the membership, trustees, officers, size and growth of public pension funds within the State of Illinois. The total number of funds now is 638 police, firefighter and large funds. These funds include over 3,800 trustees. The assets have increased to over \$130.6 billion. The total number of participants has increased to 711,830 and the total benefits paid were over \$6 billion to 307,731 beneficiaries.

A major responsibility of the Pension Unit is to conduct on--site and automated compliance audits. The individual police and firefighter pension funds range from just 1 or 2 participants to over 500 participants. The Pension Unit compliance staff were able to accomplish 56 exams. The examinations included several of the largest funds in the state, and yielded over 100 findings.

This is the fifth year the Unit received electronically filed pension fund annual statements from all 633 public pension funds which are required to file an annual statement. There were six workshops and seminars offered to the downstate police and firefighter pension funds, members, trustees and officers. In addition, there were fifteen meetings with the different pension fund organizations and large pension funds, with the expected benefit being the improvement of operations for all public pension funds in the state. Pension staff traveled over 8,000 miles to accomplish these goals. The Unit also submitted eight articles to the nine public pension organization's newsletters.

The Unit performs an actuarial study and calculates tax levies for the police and firefighter pension funds. This information is sent to all funds for use with their local municipalities. The Unit performed a number of complicated calculations for police portability along with answering questions on this benefit. Historical tax levy calculations are supplied to local municipalities upon request, as well as calculations for the legislature and Pension Laws Commission. The Unit also supplied six calculations to potential new funds to assist municipalities with real cost data for their future employee pension fund.

The Unit handled over 6,000 phone calls, including inquiries from police and firefighter pension funds needing assistance with the operation of their respective funds; investment fund managers requesting information regarding investments; professional pension organizations; and members of the state legislature. The Unit answered 102 letters requesting an opinion to settle questions arising from the operation of various pension funds. There were over 600 written inquiries from different individuals and groups within the pension arena that were assigned to staff for responses. The Unit also made over 85 pension calculations for smaller funds that had retiring members.

Legal

In conjunction with the National Association of Insurance Commissioners, the Division sent a series of interrogatories and document requests to 252 domestic insurers and 30 major brokerage firms active in Illinois. These interrogatories and document requests were designed to elicit details of the insurers' and producers' business activities relating to their compensation practices, including but not limited to bidding practices, client fees, contingent compensation and other arrangements.

The Division has completed preliminary work on draft rules implementing all insurance-related aspects of the recently passed medical malpractice reform legislation. While additional work is required, these draft rules both support and implement the underlying purposes of the insurance regulatory features of the legislation. The Division is currently working through a number of legal and procedural issues likely to arise during the course of the public hearing regarding ISMIE's medical malpractice rate filing. At the same time, the Division is working through the final stages of draft rulemaking to implement the regulatory reforms established in the recent legislation.

John Hancock Life Insurance Company and Minnesota Life Insurance Company challenged this Division's invoices for retaliatory taxes owned in the amounts of approximately \$7 million and \$2 million respectively. The basis for their challenges were that, pursuant to a contract with the State of Illinois (CMS) on group life insurance for state employees, the companies were exempt from the payment of any state insurance taxes. Minnesota Life has settled with the Division, resulting in the release of \$2.5 million into the General Revenue Fund. The John Hancock matter is in litigation. In an unrelated insurance tax matter, in May of this year, the Director of Insurance assessed Sun Life Assurance Company of Canada (an alien insurer) approximately \$4 million in additional tax owed pursuant to the so-called "retaliatory" statute (215 ILCS 5/444). The company has filed an action for declaratory and injunctive relief seeking a declaration that Illinois' retaliatory (insurance) tax is unconstitutional as violative (among other reasons) of the Foreign Commerce Clause. The trial court ruled that the Division's application of the tax is constitutional. The case is on appeal.

Office of the Special Deputy

The Director of Insurance as statutory Conservator, Rehabilitator, or Liquidator of companies subject to provisions of Articles XIII and XIII ½ of the Illinois Insurance Code, has appointed, pursuant to the authority in Article XIII, a Special Deputy as her agent to direct the affairs of such companies in receivership.

The Director, through her Special Deputy, takes the following alternative courses of action, depending on the type of court order that is issued against a company:

1. Pursuant to an Order of Conservation, the Director takes possession of property, business and affairs of a company to protect the interests of policyholders and other creditors, and proceeds to ascertain the condition and situation of the company.
2. Pursuant to an Order of Rehabilitation, the Director is vested with title to all property, contracts and rights of action of the company. She proceeds to conduct the business of the company and to take appropriate steps, if possible, to remove the causes and conditions which made rehabilitation necessary.
3. Pursuant to an Order of Liquidation, the Director is also vested with title to all property, contracts and rights of action of the company. Upon entry of the court order, she proceeds immediately to liquidate the property, business and affairs of the company, to marshal assets, and to evaluate the claims asserted against the company in order to make a distribution of assets as soon as possible to policyholders and other creditors.

For Illinois domiciled or licensed insurers placed into liquidation, the Illinois Insurance Guaranty Fund, the Illinois Life and Health Insurance Guaranty Association, and the Illinois Health Maintenance Organization Guaranty Association are mandated by statute to respond to the covered claims up to certain statutory caps. Similar funds and associations exist in most other states for similar purposes. The claims of policyholders of unauthorized, illegal or unlicensed insurers are not generally afforded this protection.

Listed below is a brief report of each active company as of December 31, 2004. Following these reports is a combined statement of cash receipts and disbursements for each company.

The receivership proceedings were adversarial. In both the Circuit Court of Cook County and the Illinois Appellate Court, Alpine lost in its attempts to seek review of both the liquidation order and an earlier order granting summary judgement in favor of the Director with respect to the illegality of Alpine's Proposed Plan of Rehabilitation. These orders were appealed by Alpine's former management to the Illinois Supreme Court. On April 4, 2001, the court denied the petition for leave to appeal.

The supervising court entered an order on September 6, 1988 approving the Amended Plan of Rehabilitation for American Mutual Reinsurance Company. The Amended Plan contemplated the payment, in cash, of a fixed percentage of all outstanding claims presented in the ordinary course of business and payment of the remainder by interest bearing surplus drafts. The Amended Plan provided for progressive periodic increases to the cash portion of the payment formula and a corresponding redemption of the surplus drafts. Amreco made its first payment to treatyholders under the Amended Plan on February 15, 1989 and has since made 63 consecutive quarterly payments. The most recent payment was made on November 30, 2004.

On December 21, 2001, the Supervisory Court entered an order approving the Second Amended Plan of Rehabilitation, which added a final claims filing deadline in order to accelerate the claims process and wind up the estate earlier than the anticipated plans closing date of 2018-
