

TITLE 50: INSURANCE
PART 2007 MINIMUM STANDARDS OF INDIVIDUAL ACCIDENT AND HEALTH INSURANCE
CHAPTER I: DEPARTMENT OF INSURANCE

Section 2007.70 Accident and Health Minimum Standards for Benefits

- b) Nothing in this Section shall preclude the issuance of any policy combining two or more categories of coverage as set forth in Section 355a(4) of the Illinois Insurance Code [215 ILCS 5/355(a)(4)].
 - 6) **Disability Income Protection Coverage**
"Disability Income Protection Coverage" is a policy which provides for periodic payments, weekly or monthly, for a specified period during the continuance of disability resulting from either sickness or injury or a combination thereof which has a maximum period of time for which it is payable during disability of at least six (6) months. A disability income protection policy may provide for reduction by the amount of Social Security benefits at inception of any claim but no benefit reduction shall be permitted to offset a Social Security benefit increase during a benefit period.
